

Welcome to **komMedikus**

We are an institution for advanced training and education focussing on integration and communication in clinics and practices.

We offer clinic- and patient-orientated coachings and trainings

↳ for foreign doctors

- linguistic and social integration
- patient-orientated communication
- individual support upon arrival in Germany

↳ for all other occupations in your clinic or practice

- courses and workshops

We focus on **more+** quality and therefore on economic success. Learn more about our philosophy, our aims and procedures.

The objectives of **komMedikus**

Based on a holistic approach of consultation we make it our business to facilitate and assist small clinics and big practices in becoming **more+** successful.

The two pillars of komMedikus are:

The instrument for integrating foreign doctors developed by komMedikus is unique and is aiming to achieve long-term improvement of employee efficiency.

The advanced trainings, courses and workshops for all medical staff support institutions which are subject to structural changes within the health service.

The program of **komMedikus**

- ▶ **Analysis** of individual difficulties
- ▶ **Seminars** for linguistic and social integration with practical orientation
- ▶ **Online support** during exercises
- ▶ **Communication training** based on a successful doctor-patient interaction
- ▶ **Workshops** as regards content clinic- and practice-specified
- ▶ **Trainings** for a multipliers and tutors

Our clients are hospitals, clinics and practices as well as academies for nursing, institutions for rehabilitation or nursing homes. We carry out our training program throughout Germany.

For a great number of seminars it is possible to apply for training points at the Association of Statutory Health Insurance Physicians.
